

CURRICULUM VITAE: Olivier RITLEWSKI

FULL STACK WEB EXPERT in Drupal, PHP, HTML5 and SCSS

More than **20 years of experience** as web developer
Good knowledge of Symfony and JS

Nationality: Swiss, French

Language: French (native), English (B2 certified)

Personal website: <https://www.drupal-dev.ch>

Presentation and motivations

Since 2001, I have been working in the digital web field, and since 2009, I have chosen the Drupal CMS (based on Symfony) for its power, security, flexibility, and reliability.

My satisfaction is to give a great user experience with the digital solutions that I'm developing! I thrive on new challenges and enjoy working in agile teams. I am involved in the Drupal developer community and contribute to maintaining some modules and the Drupal core code.

Experience summary

I'm **autonomous** and a **team player**, capable of **managing** and **leading teams and projects**. I handle stress well and I'm comfortable with complex projects and **human relations**. I'm proficient in self-learning new technologies, I'm using **Agile** on a daily basis, **CI/CD process** for **quality**. My initial professional background was in visual communication and graphic design, it gave me advantages for UI good integration and UX. **I also have certified competencies as a coach for driving change success.**
